VALUABLE PROPERTY.
For Sale or To Let,
THAT pleasant situation about one mile north of the village of New-Milford, on the road leading from New-Milford to Litchfield, and also the same distance from the Housatonic Rail Road which is to be completed during the present year.
A House two and half stories, back kitchen, STORE, Cheese House, Barn, a spacious Shed and Stabling, an acre and a half of Valuable Land attached to the premises, in a high state of cultivation, upon which is a young orchard of first rate grafted fruit.
The above buildings are in a state of perfect repair, having been very recently built, and the house newly painted. Under the kitchen is a cistern of a capacity sufficient to hold about forty barrels—and a well within eight feet of the house which never fails to yield a sufficient supply of that indispensable element so requisite at all seasons of the year. The buildings have been commodiously fitted for a tavern stand, and have been used about two years for that purpose.
Any person wishing to find one of the most delightful locations in the county of Litchfield for the prosecution of Mercantile Business in connection with a Public House, can be accommodated upon reasonable terms by applying to the subscribers. Possession will be given the first of April next.

New-Milford, Feb. 28, 1839. 41 39

At a Town Meeting legally warned and held in Sharon, on the first day of October, 1839—
BY-LAW.
VOTED, that if any owner of any horse, cattle, or mules, shall suffer the same to go at large out of his or her enclosure, after the first day of April next, such owner shall forfeit and pay, to any person who shall take up and impound the same, the sum of twenty-five cents for each head of cattle, for each horse, and for each mule, for each time they shall be so found at large, out of the owner's enclosure, and taken up.
That it shall be the duty of the haywards in their several districts, and it shall be lawful for any freeholder, to impound any horses, cattle, or mules, so found out of the enclosure of the owner and at large, who, together with the pound keeper, shall regulate the proceedings, receive the same compensation, and have the same powers as are granted in the statute law of this state 'Entitled Pounds' Provided, that no penalty to be incurred under this by-law shall exceed the sum of three dollars; and the owners of such horses, cattle or mules, so impounded, shall not receive the same from the pound until he shall have paid to the person impounding the same the amount of the forfeiture, and to the pound keeper his fees and expenses for keeping said creatures, as in other cases of creatures impounded: Provided nevertheless, that any person who shall have a family residence in said town of Sharon may, if he chooses, suffer one cow to run at large on the public highways, and not incur the aforesaid penalty.
Voted, the aforesaid by-law be published in the Litchfield Enquirer.
Sharon, Feb. 20, 1839.
The foregoing By-Law is a true copy, as appears of record.
GEO. KING, Town Clerk.

Litchfield County Mutual FIRE INSURANCE COMPANY.
THIS Company has been in operation a considerable time, and has insured property to a very large amount. It has funds on hand, and property pledged, sufficient to indemnify those who insure against any loss which will probably take place. The difference between the expense of insuring in this company and in ordinary insurance companies, is now too well understood to need any explanation. Individuals in this county, who choose to insure their property at a trifling expense, can apply to the Secretary in the village of Litchfield, or to the agents in the several towns.

MORSE'S Improved Patent ATHANOR COOKING STOVE.

Nos. 1, 2, AND 3.
Economy and Convenience.
THIS Stove having been recently so improved as to render it in many respects superior to any now in use, is, notwithstanding the announcing and forthcoming of an entire new article, which was to supersede and finally route all Cooking Stoves, now offered to the public with the most perfect confidence.
This Stove has 4 Boilers, the washing boiler being directly over the fire. There are cones in the inside, with dampers to confine the heat to each of the back boilers, thereby causing them to boil with much greater facility than in common stoves, and which are so constructed as to throw the whole or a part of the fire entirely around the oven at pleasure, which it will readily be seen causes it to bake in the most perfect manner.
The extent of surface heated, and the manner of applying the heat, render this important part of the stove, in the opinion of all, superior to any in use. The front is so constructed that the fire may be always seen, which not only renders it very pleasant, but may be corrected in any confined room, where it may be in operation.
Sufficient is known respecting the PATENT ATHANOR to prove itself beyond a doubt a workiey of the first order, performing its work on a plan of the strictest economy, thereby suiting itself to all classes in community, as Economy and Convenience are alike the interest of all; and from the trial they have met with, the subscribers feel themselves justified in saying they are not surpassed by any thing in the United States.
The opinions of a few who have used the ATHANOR are here noticed:
Litchfield, August 25, 1837.
This certifies, that in the last twelve years I have used a great variety of cooking stoves, and have found none equal to the Patent Athanor. A greater amount of work, with less fuel, can be performed with it in a given time, than with any with which I am acquainted. The oven is altogether superior to any I ever examined, and performs its work with entire satisfaction.
Litchfield, September 12, 1837.
Mr. MORSE—I have had cooking stoves of different descriptions, and have at length procured one of your Patent Athanors, which I consider as altogether better than any I have used.
Respectfully, your obedient servant,
JOHN ADAM.
Litchfield, (So. Farms,) Sept. 12, 1837.
Messrs. MORSE & SON: This certifies that I have used a month past the stove which I purchased of you, and am prepared to say that I consider it far superior to any with which I have been acquainted. I find no difficulty in doing the cooking (including baking) and washing for a family of 35 or 40, which number I have had for the last month, and this with less than half the fuel formerly consumed. I feel a confidence in recommending the Athanor to all who may wish to purchase a cooking stove—believing that all who purchase will find that all which can be said in their praise will fall far short of their merits.
Litchfield, September 11, 1837.
I have for many years past observed the various patterns of stoves invented by scientific men, and made trial of the improvements of many; but have never found any thing to compare with Morse's Improved Athanor. Having made a thorough trial of it, I find it the most perfect article I have ever seen. The heat of the oven is rendered equal in every part, so that baking can be done without turning in every respect as well as in a brick oven. The heating oven detaches nothing from the boilers, and is so constructed as to bring the fire in contact with any or all the boilers, causing them to boil quicker at every point than any stove I have ever seen. Its construction and adaptation renders it all that can be desired in a cooking stove.
GARWOOD SANFORD.
Stove dealers and all others are invited to call and examine for themselves before purchasing elsewhere. Also, on hand, BROWN'S COOKING STOVES, and a variety of other patterns, which are offered to the public on reasonable terms.
All kinds of Tin, Brass, Copper, and Sheet Iron Work done to order—10 rods west of the County House.
MOSES MORSE & SON.

CIRCULAR.
THE article published below concerning the new and popular doctrine advanced by the illustrious Goellicke of Germany, cannot fail of exciting a deep and thrilling interest throughout our country.
[Translated from the German.]
LOUIS OFFON GOELICKE,
OF GERMANY,
THE GREATEST OF HUMAN BENEFACTORS.

Citizens of North and South America.
TO LOUIS OFFON GOELICKE, M. D., of Germany, (Europe) belongs the imperishable honor of adding a new and precious doctrine to the Science of Medicine—a doctrine which, though vehemently opposed by many of the faculty, (of which he is a valuable member,) he proves to be as well founded in truth as any doctrine of Holy Writ—a doctrine, upon the verity of which are suspended the lives of millions of our race, and which he boldly challenges his opposers to refute, viz: Consumption is a disease always occasioned by a disordered state of the VITA (or Life Principle) of the human body: It often secretly lurking in the system for years before there is the least complaint of the Lung—C— and which may be as certainly, though not so quickly, cured, as a common cold or a simple headache. An inviolably precious doctrine this, as it imparts an important lesson to the apparently healthy of both sexes, teaching them that this insidious foe may be an unobserved inmate of their "clayey houses," even while they imagine themselves secure from its attacks, teaching them that the great secret in the art of preserving health is to pluck out the disease while in the blade, and not wait till the full grown ear.

This illustrious benefactor of man is also entitled to your unfeigned gratitude, and the gratitude of a world, for the invention of his Matchless Sanative—whose healing gift may justly claim for it such a title, since it has so signally triumphed over our great common enemy, Consumption, both in the first and last stages—a medicine which has thoroughly filled the vacuum in the Materia Medica, and thereby proved itself the conqueror of PHYSICIAN'S—C— a medicine, for which all mankind will have abundant cause to bless the beneficent hand of a kind Providence—a medicine, whose wondrous virtues have been so glowingly portrayed even by some of our clergy, in their pastoral visits to the sick chamber; by which means they of "clayey houses," even while they imagine themselves secure from its attacks, teaching them that the great secret in the art of preserving health is to pluck out the disease while in the blade, and not wait till the full grown ear.

GOELICKE'S
Matchless Sanative,
a medicine of more value to man than the vast mines of Austria, or even the united treasures of our globe—a medicine, which is as equally from the vegetable, animal and mineral kingdoms, and thus possesses a THREE-FOLD power—a medicine, which, though designed as a remedy for consumption solely, is possessed of a mysterious influence over many diseases of the human system—a medicine, which begins to be valued by Physicians, who are daily witnessing its astonishing cures of many whom they had resigned to the grasp of the INEXHAUSTIBLE GRAVE.

DOSE of the Sanative, for adults, one drop; for children, a half drop; and for infants, a quarter drop; the directions explaining the manner of taking a half or a quarter drop.

Price—Three and one-third six dollars (\$3.50) per ounce.
A German coin, value 75 cents.

A certificate from three members of the MEDICAL PROFESSION in Germany, in Europe.

We, the undersigned, practitioners of medicine in Germany, are well aware that, by our course, we may forfeit the friendship of some of the faculty, but not of its benevolent members, who are uninfluenced by selfish motives. Though we shall refrain from an expression of our opinion, either of the soundness or unsoundness of Dr. Goellicke's new doctrine, we are happy to say that we deem his Sanative too valuable not to be generally known—for what our eyes behold and our ears hear, we must believe.

We hereby state, that when Dr. Louis Offon Goellicke first came before the German public, as the pretended discoverer of a new doctrine and a new medicine, we held him in the highest contempt, believing and openly pronouncing him to be a base impostor and the prince of quacks. But, on hearing so much said about the Sanative against him and for it, we were induced, from motives of curiosity merely, to make trial of its reputed virtues upon a number of our most hopeless patients; and we now deem it our bounden duty (even at the expense of our self interest) publicly to acknowledge its efficacy in curing not only consumption, but other fearful maladies, which we have heretofore believed to be incurable. Our contempt for the discoverer of this medicine was at once swallowed up in our utter astonishment at these unexpected results; and, as amends for our abuse of him, we do frankly confess to the world, that we believe him a philanthropist, who does honor to the profession, and to our country, which gave him birth.

The recent adoption of this medicine into some of our European hospitals is a sufficient guaranty that it performs all its promises. It needed not our testimony, for wherever it is used it is its own best witness.

HERMAN FIMMELER, M. D.
WALTER VAN GAULT, M. D.
ADOLPHUS WERNER, M. D.
Germany, December 10, 1836.

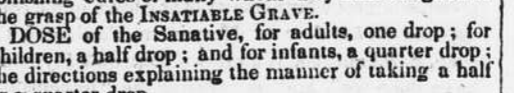

ADDITIONAL CERTIFICATES.
Post Office, Sayville, Conn. July 11, 1838.
Sir—There is one case here which I think worthy the attention of the public. A woman about 40 years old, who has been unable to walk at all for 14 years, has been taking the Sanative and has now got so well that the last week, she walked out around the yard.

NEW HAVEN, Conn. July 24, 1838.
Dear Sir—The Matchless Sanative sells well and with signal success. One case—a young man, in the last stages of consumption, given over by his physician, has been taking it only a few weeks and is now able to walk and ride out. Before he took the Sanative, he was unable to get out of bed, and his death was hourly expected. But to the astonishment of his friends he was soon able to leave his bed and to be out as before stated. Two other similar cases have been recently occurred.

D. W. DAVENPORT.
Post Office, Westfield, Fair'd Co. Conn. July 9, 1838.
Sir—A young man here from Troy in the State of New York, who was considered by every one to be in a confirmed consumption, has been taking the Sanative, and is recovering fast.

H. SHEPARD, P. M.
N. B. A great variety of certificates from Postmasters and others, of wonderful cures by the use of the Sanative, may be seen at the Subscribers, (Bradleyville, Ct.) where the above Sanative is for sale by KILBORN & COE, Agent.

GOLD'S Eclipse Cooking Stove.

THREE SIZES.
THE attention of the community is continually called to this, and that, and the other Cooking Stove; each claimed to be the very best, and entitled to homage almost as great as was paid to "molten images," when it was proclaimed "These be thy gods, O Israel." The subscriber worships no such "work of the craftsmen," nor does he desire that even his own "latest improvement" should be regarded beyond its well attested merit.

The "ECLIPSE COOKING STOVE"—which has been in very extensive use for the last two years, received its name at first from the peculiar construction of its front part directly over the fire, and which is made to adapt itself to kitchen utensils of any size; but a discerning public have since decided its claim to the title for other reasons too obvious to mention. Do other stoves speedily warm a room? so does this. Do they bake well, boil well, roast well? so does this. Are they handsome? so is this. Can their inventors refer to gentlemen who will recommend their stoves? We might refer to gentlemen, aye, and to ladies too, so numerous and so highly respectable, that we must decline doing it, from motives of delicacy, as it would be indelicate to attempt a selection. Ask any one of the "better half of creation" among the hundreds who have made a trial of the "Eclipse," and you will be assured that it does indeed eclipse every thing ever designed for cooking, baking, broiling, roasting, washing. The woman who sets about her Monday's work, on Monday morning, bright & early, (and what notable housewife does not?) may in a moment's time calculate an eclipse, and bring it on, by means of which—let every husband and every housekeeping bachelor take notice—a "washing day" is turned from a day of dump and sorrow, into a day of cheerfulness and pleasure. Let those who may have been seeking for a "consumption so devoutly to be wished," please call at the subscriber's office, near the South meeting-house, Cornwall, where they will find the Stoves—all sizes—in good order, all the doors trimmed with malleable iron, and set up in the most workman-like manner.

Also—Stoves Price, of the several quantities and prices, and all kinds of Copper, Tin, and Sheet Iron Work, done to order, in the best manner.
Prices of Stoves from \$16 to \$30.
STEPHEN J. GOLD.
Cornwall, Oct. 25, 1838. 21
